

SCOTLAND

Rob Storey

Partner and therapist in a sports massage and chiropractic clinic which I set up with my business partner 4 years ago.

I have worked at many events in Scotland including the Edinburgh marathon and world cross country championship when it was held here in Scotland as well as at many duathlon and triathlon events. I also work regularly with the Scottish Womens Rugby Union providing pre and post-match treatment for the international team and the extended squad during training camps.

I am keen to promote the benefits of all soft tissue therapies to athletes and the more sedentary and also on promoting the fact that therapists should be paid for the work they do. I am also involved in sports coaching, rugby and martial arts, and often help and advise with injury treatment and management for those I coach.
